## VICAIR® XXTRA 02

## **ESPECIALLY DEVELOPED FOR BARIATRICS**

PRESSURE ULCER TREATMENT

## User weight up to 500kg Shaped like the Vicair Adjuster O2 Wider size range than other Vicair products

The Vicair XXtra O2 is a wheelchair cushion especially developed for bariatrics. The compartments are filled with bigger SmartCells, offering individuals with a weight of up to 500 kg optimal protection against skin breakdown. The design, based on the Vicair Adjuster O2, combines excellent stability and positioning possibilities with a very high level of comfort.

100% machine washable and breathable, for optimal hygiene and perfect temperature and moisture regulation. The cushion automatically manages small pelvic obliquities, but can be individually adjusted to support more extreme asymmetry.

Despite the large size, the Vicair XXtra O2 is extremely lightweight!

PRODUCT PERFORMANCE
